Dr. Shadi Ullah Khan  
Editor, Journal of Social Research Development

August 1, 2022

Dear Dr. Khan:

I am pleased to confirm that *Journal of Social Research Development* is selectively indexed in the *Bibliography of Asian Studies* (BAS), a publication of the Association for Asian Studies (AAS).

BAS has been a staple of the AAS offerings for more than half a century. The publication is accessed by scholars and students all over the world interested in scholarship on East, Southeast and South Asia as well as with overseas Asian communities. Through its extensive bibliographic coverage, it is an excellent means for discovering citations and full-text versions of Western-language journal articles, review articles, conference proceedings and chapters in edited volumes and Festschriften. We are delighted that the *Journal of Social Research Development* is included in this information.

Sincerely,

David Magier, Ph.D.  
Interim Editor, Bibliography of Asian Studies
